ABOUT

TWO BLACK RAVENS FOUNDATION

Dear Reader,

As a former Air Force Special Warfare TACP, I understand firsthand the trials, tribulations, and the hidden pitfalls that come with military service—and the long road that follows. That perspective drives our mission at the Two Black Ravens Foundation: to host world-class events that promote healing and success for wounded, injured, and ill DoD service members and veterans.

Through these events, we create opportunities for participants to explore positive coping mechanisms, using art as a means to express and process emotions when words alone cannot carry the weight.

By fostering emotional intelligence through artistic expression, we empower veterans to communicate more openly with family, friends, co-workers, and mental health providers. In doing so, we not only strengthen relationships but also contribute directly to reducing the devastating rates of veteran suicide.

A YEAR OF GROWTH AND HEALING

HEALING THROUGH CREATIVITY

Despite the challenges facing veterans nationwide, our programs continue to grow. Each event provides participants with tools for emotional expression, resilience, and connection—helping them navigate life's most uncertain terrain.

SUSTAINABLE IMPACT THROUGH PARTNERSHIPS

To maintain our mission, we've implemented strategies that maximize impact while respecting resources. This includes scholarship funding for veterans and Gold Star families, sustainable earned-income workshops, and partnerships with conservation and community organizations. Your sponsorship directly fuels this mission—helping us transform stories of struggle into stories of healing, resilience, and hope.
